¹ These are appropriated amounts, except italicized funding levels were determined by DOE or EPA. Actual spending is reduced mostly by a mandated transfer of 2.65% of extramural R&D funds for SBIR/STTR. Funding levels adjusted to reflect current organization.

² Proposes total of \$82 million for appliance standards, codes, and Energy Star, a 23% increase from FY 2012 enacted but 17% below the FY 2013 request.

³ FY13 annualized for full year continuing resolution, may not reflect roughly 5% sequester.

⁵ Bars use of funds to enforce light bulb efficiency standards and to work on ceiling fan efficiency standards.
